

UTARGET – UV spotlight with variable intensity

UWAVE team is pleased to announce that its **UTARGET** spotlight in manual version is available again. With its various buttons and adjustable optics, it is the ideal solution for making precision UV bonding.

Key Features of the Manual UTARGET :

- **Power and Performance** : Delivers high irradiance of up to 2000 mW/cm².
- **Wavelength Flexibility** : Available in UV-A wavelengths 365, 385, 395, 405 nm.
- **Manual Control and Adjustability** : Real-time adjustment of the intensity of the UV light from 20% to 100%.

- **Complete Kit :** The **UTARGET** is delivered in a kit, including all the essential accessories for its use.

UTARGET-AUTO to UTARGET Manual !

If you are currently using the **UTARGET-AUTO** and wish to transition to the optimized manual control, do not hesitate to contact us for a retrofit to the **UTARGET**.
