

UWAVE moves and expands!

After a successful year and to support its growth, UWAVE expands its capabilities by moving to a new building that features:

- a **production area adapted to lighting manufacturing** for current and future projects
- a **showroom for customers** to present UV LED products and run feasibility tests
- an **increased open space** with offices and meeting room
- a warehouse with **higher storage capacities**

OFFICE :

10 avenue de Norvège,
Parc des Erables, Bât. A3
91140 Villebon-sur-Yvette

new

**UWAVE team is looking forward working with you on your future UV LED projects
Contact us to come and visit or for any question!**

For now and despite the electronical components crisis, UWAVE will not increase its prices and will keep fast delivery (up to 4 weeks on standard products) to limit the impact on your budget & schedule
Only UTARGET is currently unavailable
