

Discover our powerful and complete USPOT UV Spotlight

USPOT is a powerful UV pointer, up to $6W/cm^2$, with a wide spot up to 50mm in diameter and available in 2 versions, window and standard to meet all your UV curing needs with precision and efficiency.

Portable solution

USPOT is available in a complete kit with its handle and accessories, offering you a handheld solution, flexible and precise for your UV curing operations.

Semi-automated use

USPOT can be combined with our UPOWER control box, to be able to adjust manually process parameters such as cycle time and light intensity. UPOWER can also be controlled through an external PLC control or a footswitch.

Integration on production lines

USPOT can be easily integrated on your production lines. Its direct PLC control simplifies the automation of the process for a maximum curing efficiency even in complex environments.
